Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by McKernan et al.

McKernan et al show an upright multiple drawer storage cabinet (11) comprising a rigid upright housing defining a hollow interior, a pair of generally upright side walls (14), a plurality of storage drawers (24) disposed vertically, and a bottom wall arrangement defined by a closed rigid hollow box structure having top and bottom walls (19,21) (see figures 7-8).

With claims 2 and 5, the right and left sidewall structures are identical and wherein the front and rear uprights are mirror images of one another.

With claim 3, each of the front and rear uprights is a generally channel-shaped member which is positioned adjacent and extends generally vertically.

With claim 4, the sidewall arrangement is roll-formed from the flat metal sheet.

With claim 6, the rear wall structure is defined by a monolithic one-piece structure having a generally planar upright rear wall provided with flanges extending along opposite vertical edges.

Allowable Subject Matter

Claims 7-14 and 16-24 are allowed.

Response to Arguments

Applicant's arguments filed March 3, 2005 have been fully considered but they are not persuasive. Applicant has argued that the prior art does not show the applicant's claimed invention. The examiner disagrees with this argument. It is best interpret that McKernan et al show an upright multiple drawer storage cabinet (11) comprising a rigid upright housing defining a hollow interior, a pair of generally upright side walls (14), a plurality of storage drawers (24) disposed vertically, and a bottom wall arrangement defined by a closed rigid hollow box structure having top and bottom walls (19,21) (see figures 7-8).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3636

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
